

EVERYTHING YOU SHOULD KNOW ABOUT THE SKID STEER BRUSH MOWER

A Closer Look at Rut Manufacturing's Brush Mower

Rut's brush mower attachment is a must-have in your equipment arsenal. Designed with you in mind, it's user-friendly, built for efficiency, and lasts for decades. Rather than settle for machines that aren't optimized for speed, Rut's Brush Mower is equipped to handle anything thrown its way. Like all Rut products, the brush mower is designed, manufactured, and sold right here in the USA, so you know exactly where your attachments are coming from.

If you want to get all of the fast facts on our brush mower, keep reading.

Size and Pricing Options

Rut's brush mower comes in two different size options, a 60" model, or a 72" model. With each size, the pricing varies from \$3,410 to \$3,555, which is one of the most affordable on the market! **When you choose Rut's products you're making a smart, long term investment.**

Get the Facts

Some of the best features of Rut's brush cutter include:

- Cuts material up to 4" in diameter
- Built for machines between 10-27 GPM
- Comes with standard 500 PSI hydraulics
- A range of four different motors, so your brush mower attachment can work best with your skid steer
- A blade tip speed of over 14,000 feet per minute, thanks to our unique motor configuration
- A direct-drive bearing housing motor that uses a two-blade cutting system

Designed to be the Best

The primary goal of Rut products is to assist you on the job, no matter the duration, size, or length of your project. Whether it's clearing thick brush or managing farmland, our products can handle anything. **We optimize our products for safety as well as speed, so you can rest easy, no matter what you're working on.**

The brush mower can be attached to skid steers, compact track loaders, and multi-terrain loaders, and is compatible with all the top equipment distributors. You can start making the most of your work thanks to Rut's skid steer attachments.
