# HOW TO USE THE SKID STEER BRUSH MOWER

---

**STEP 1:** Ensure your Annihilator Disc Mulcher matches your skid steer's size, dimensions, and hydraulic flow rate.

**STEP 2:** To use a tree cutter, first, inspect the surrounding area. Do not engage your attachment unless you're in a place where debris won't harm anyone working nearby.

**STEP 3:** Attach the tree cutter's coupler to your device. Once the attachment is secure, you're ready to work!

## FAQ: SKID STEERS

---

Q

How can I use my skid steer?

Q

How long should I operate my skid steer?

A

The most common uses include: clearing, pushing, front-loading, transporting, and navigating.

A

A typical day of use would be considered five or six hours to get the most out of your equipment.

# WHAT OUR **CUSTOMERS ARE SAYING** ABOUT RUT MANUFACTURING

"I bought the Rut manufacturing brush eliminator for my Kubota kx040 excavator. Wow, this is the way to clear blackberries and brush up to 4-inch diameter in a hurry. Way to go Rut manufacturing! I will **definitely recommend their products and services.**"

Tom Vanderzanden

"I have 60 acres with about 50 of those being heavily wooded with multiflora rose, up to 5" or 5" grapevines, and thick growth of who knows what. Today is my fourth day of using this Brush Cutter for RUT MFG and I **couldn't be happier** with this piece of machinery."

Dave Nedly
