FORESTRY DISC MULCHER ANNIHILATOR

The Disc Mulcher Annihilator is the must-have attachment for anyone looking for a fast, efficient, and durable forestry mulcher. Like all products at Rut Manufacturing, the Annihilator is designed, manufactured, and **sold right here in the USA**, so you know our attachments are made from the best quality materials. Due to the Annihilator's direct-drive unit powered by a Bent Axis Piston motor, this disc mulcher is ideal for managing unruly property and vegetation and aiding forest fire prevention. The impressively powerful blades of the Annihilator are capable of cutting up to a **14-inch diameter tree** with its durable carbide mulching teeth.

GET THE FACTS

THE FORESTRY DISC MULCHER ANNIHILATOR INCLUDES THE FOLLOWING ITEMS:

- Carbide-Tipped Mulching Teeth
- Quick Couplers
- 3/8-inch deck thickness
- Customized motor for optimal performance with your Skid Steer

FORESTRY DISC MULCHER SIZES: 48" AND 60"

THE 48" ANNIHILATOR FORESTRY DISC MULCHER

- Weighs approximately 2100 pounds
- Can be used on low-flow and mid-flow machines (17 gallons per minute minimum)
- Can be set to a maximum of 33 gallons per minute

FORESTRY DISC MULCHER SIZES: 48" AND 60"

THE 60" ANNIHILATOR FORESTRY DISC MULCHER

- Weighs approximately 2600 pounds
- Compatible with mid and high-flow machines (27 gallons per minute minimum)
- Can be set to a maximum of 50 gallons per minute

APPLICATIONS FOR THE ANNIHILATOR

- Farmland
- Right of Ways
- Clearing Land
- Vegetation Control
- Forest Fire Prevention
- Site Preparation
- Lot Clearing
- Clearing Trail and Road Overgrowth
- Storm Damage and Disaster Cleanup

THE ANNIHILATOR IS **NOT** RECOMMENDED FOR:

- ✘ Urban Areas
- ✘ Suburban Homes Under One Acre of Land

No matter the scope of the project, the Annihilator will eliminate overgrowth with ease and efficiency. The Mulcher Annihilator is a dynamic piece of equipment that's specifically designed to tear down limbs, brush, and process the denser areas of your property.

HOW TO USE THE SKID STEER FORESTRY DISC MULCHER ANNIHILATOR

STEP 1: Ensure your Annihilator Disc Mulcher matches your skid steer's size, dimensions, and hydraulic flow rate. Rut Manufacturing's customization process will ensure you're equipped with a perfect fit.

STEP 2: To use a tree cutter, first, inspect the surrounding area. Do **not** engage your attachment unless you're in a place where debris won't harm anyone working nearby.

STEP 3: Attach the tree cutter's coupler to your device. Rut Manufacturing's attachments are quick attach compatible, and if needed, we can create a coupler that fits your machine. Once the attachment is secure, it's ready for action!

FAQ: SKID STEERS

Q How long do skid steers last after purchase?

A A typical skid steer can last anywhere from 2,000 to 5,000 hours, or sometimes closer to 7,000 hours.

Q How much should I expect to pay for my skid steer?

A The price of a skid steer will vary, but it primarily depends on the size. You could spend anywhere between \$10,000 to \$60,000, it's all about what you're comfortable with and what you need from your machine.

WHAT OUR CUSTOMERS ARE SAYING ABOUT RUT MANUFACTURING

"I bought the skid steer terminator brush and I love it. The craftsmanship is top-notch and the brush hog works excellent. Would recommend Rut Mfg to anyone, **great quality and great people.**"

Jacinda Wassam

"I have been using Rut products since 2017 and I am more than happy with the quality of service and the products. Every time I call Ira he immediately hooks me up with what I need. I **100% stand behind my testimony of these guys!**"

Houston Barnes
