Whether you're leveling trees, stumps, or brush, the power of the Gladiator is unmatched in its efficiency. Rut Manufacturing takes the utmost care in designing and crafting made-in-the-USA products that will increase your productivity and streamline your work.

## HOW TO USE THE SKID STEER GLADIATOR PISTON CUTTER

**STEP 1:** Ensure your Gladiator Brush Cutter matches your skid steer's size, dimensions, and hydraulic flow rate. Rut Manufacturing's customization process will ensure you're equipped with a perfect fit for your skid steer.

**STEP 2:** Inspect the surrounding area. Do not engage your attachment unless you're in a place where debris won't harm anyone working nearby.

**STEP 3:** Attach the tree cutter's coupler to your device. Rut Manufacturing's attachments are quick attach compatible, and if needed, we can create a coupler that fits your machine. Once the attachment is secure, it's ready for action!

*Note: When using the forestry brush cutter, a case drain during operation is required.*

# FAQ:

## SKID STEERS

### Q

Can I use different attachment brands on my skid steer?

### A

You can use different attachment brands on your skid steer; it's just important to **make sure you have a universal coupler, or quick attach, installed on your skid steer.** However, depending on the hydraulics and carrying capacity of your skid steer, the attachment might not be compatible with your skid steer, so it's important to check the manual first.

### Q

How can I use my skid steer?

### A

There are many ways you can use your skid steer. **The most common uses include:**

- Clearing
- Pushing
- Front-loading
- Transporting
- and Navigating

# WHAT OUR **CUSTOMERS ARE SAYING** ABOUT RUT MANUFACTURING

"The Excavator mounted log splitter is spot on. Split and load wood and never leave the seat of your machine. **Wish I had this many years ago.** Rut fitted the unit to my machine easily. I installed the unit and went to work!!"

Tommy Breedlove

"I have 60 acres with about 50 of those being heavily wooded with multiflora rose, up to 5" or 5" grapevines, and thick growth of who knows what. Today is my fourth day of using this Brush Cutter for RUT MFG and I **couldn't be happier** with this piece of machinery."

Dave Nedly
